After reading *Product Management Essentials* you will be one of a select few technically-capable PMs who can interface with management, stakeholders, customers, and the engineering team. Transformed Marty Cagan, 2024-03-12 Help transform your business and innovate like the world's top tech companies! In *INSPIRED*, product thought leader Marty Cagan revealed the best practices and techniques used by the top product teams operating in the product model. Next, *EMPOWERED* shared the best practices and techniques used by the top product leaders to provide their teams with the kind of environment they need to thrive in the product model. Yet, the most common question after reading *INSPIRED* and *EMPOWERED* has been: Yes, we want to work this way, but the way we work today is so different, and so deeply ingrained, is it even possible for a company like ours to transform to the product model? *TRANSFORMED* was written to bridge the gap between where most companies are right now and where they need to be. The leaders of these companies know they must transform to compete in an era of rapidly changing enabling technology, but most of them have never operated this way before. *TRANSFORMED* has three big goals: First, the book will educate you with a deep understanding of the product operating model, and what it means to work that way. Second, the book will convince you with detailed case studies of successful transformations, that while difficult, it is absolutely possible for you to transform your company to the product operating model. Third, the book will inspire you with truly impressive case studies of product innovation, showing what you too will be capable of doing once you successfully transform. *TRANSFORMED* is written for those driving change, including the senior company leaders—starting with the CEO—as well as the senior executives and stakeholders who need to collaborate with the product teams, the product leaders, the members of the product teams, and all those who either support or depend on these product teams. Written by best-selling author Marty Cagan and his partners at the Silicon Valley Product Group, *TRANSFORMED* is filled with real-world examples and proven, practical advice from their decades of experience helping companies move to the product operating model.

gives you a breakdown of the concepts you need to know to crush your interviews, like software development, big data, and internet security. We'll explain how Google's ad targeting algorithm works, but Google probably won't ask you how to explain it in a non-technical interview. But they might ask you how you could increase ad revenue from a particular market segment. And if you know how Google's ad platform works, you'll be in a far stronger position to come up with good growth strategies. We'll show you how Robinhood, an app that lets you trade stocks without commission, makes money by earning interest on the unspent money that users keep in their accounts. No one will ask you to explain this. But if someone asks you to come up with a new monetization strategy for Venmo (which lets you send and receive money without fees), you could pull out the Robinhood anecdote to propose that Venmo earn interest off the money sitting in users' accounts. We'll talk about some business cases like why Microsoft acquired LinkedIn. Microsoft interviewers probably won't ask you about the motive of the purchase, but they might ask you for ideas to improve Microsoft Outlook. From our case study, you'll learn how the Microsoft and LinkedIn ecosystems could work together, which can help you craft creative, impactful answers. You could propose that Outlook use LinkedIn's social graph to give salespeople insights about clients before meeting them. Or you could suggest linking Outlook's organizational tree to LinkedIn to let HR managers analyze their company's hierarchy and figure out what kind of talent they need to add. (We'll further explore both ideas in the book.) Either way, you're sure to impress. Learn the must know concepts of tech from authors who have received job offers for Facebook's Rotational Product Manager, Google's Associate Product Marketing Manager, and Microsoft's Program Manager to get a competitive edge at your interviews!
