Bitter Greens Kate Forsyth,2014-09-23 A Library Journal Best Book of 2014: Historical Fiction The amazing power and truth of the Rapunzel fairy tale comes alive for the first time in this breathtaking tale of desire, black magic and the redemptive power of love French novelist Charlotte-Rose de la Force has been banished from the court of Versailles by the Sun King, Louis XIV, after a series of scandalous love affairs. At the convent, she is comforted by an old nun, Sœur Seraphina, who tells her the tale of a young girl who, a hundred years earlier, is sold by her parents for a handful of bitter greens... After Margherita's father steals parsley from the walled garden of the courtesan Selena Leonelli, he is threatened

with having both hands cut off, unless he and his wife relinquish their precious little girl. Selena is the famous red-haired muse of the artist Tiziano, first painted by him in 1512 and still inspiring him at the time of his death. She is at the center of Renaissance life in Venice, a world of beauty and danger, seduction and betrayal, love and superstition. Locked away in a tower, Margherita sings in the hope that someone will hear her. One day, a young man does. Award-winning author Kate Forsyth braids together the stories of Margherita, Selena, and Charlotte-Rose, the woman who penned Rapunzel as we now know it, to create what is a sumptuous historical novel, an enchanting fairy tale retelling, and a loving tribute to the imagination of one remarkable woman.

Evelyn is seventeen, and though she is rich and clever, she may never be allowed to follow her older brother to university. Enraged that she is expected to marry her childhood sweetheart rather than be educated, she joins the Suffragettes, and vows to pay the ultimate price for women's freedom. May is fifteen, and already sworn to the cause, though she and her fellow Suffragists refuse violence. When she meets Nell, a girl who's grown up in hardship, she sees a kindred spirit. But the fight for freedom will challenge Evelyn, May and Nell more than they ever could believe. As war looms, just how much are they willing to sacrifice?

Green Parties in Europe Emilie van Haute,2016-04-28 The emergence of green parties throughout Europe during the 1980s marked the arrival of a new form of political movement, challenging established models of party politics and putting new issues on the political agenda. Since their emergence, green parties in Europe have faced different destinies; in countries such as Germany, Belgium, Finland, France, and Italy, they have accumulated electoral successes, participated in governments, implemented policies and established themselves as part of the party system. In other countries, their political relevance remains very limited. After more than 30 years on the political scene, green parties have proven to be more than just a temporary phenomenon. They have lost their newness, faced success and failure, power and opposition, grassroots enthusiasm and internal conflicts. *Green Parties in Europe* includes individual case studies and a comparative perspective to bring together international specialists engaged in the study of green parties. It renews and expands our knowledge about the green party family in Europe.
