Other People's Countries Patrick McGuinness, 2014 Winner of the 2014 Duff Cooper Prize Winner of the 2015 Welsh Book of the Year Award Shortlisted for the 2015 James Tait Black Memorial Prize Shortlisted for the 2015 PEN Ackerley prize Longlisted for the 2014 Thwaites Wainwright Prize Disarming, eloquent and illuminating, this meditation on place, time and memory, could only have been written by a poet, or a novelist, or a professor. Happily, Patrick McGuinness is all three, and *Other People's Countries* is a marvel: a stunning piece of lyrical writing, rich in narrative and character — full of fresh ways of looking at how we grow up, how we start to make sense of the world. This book evolved out of stories the author told his children: stories about the Belgian border town of Bouillon, where his mother came from, and where he has been going three times a year since he was a child — first with his parents and now with his son and daughter. This town of eccentrics, of charm, menace and wonder, is re-created beautifully — 'Most of my childhood,' he says, 'feels more real to me now than it did then'. For all its sharp specifics, though, this is a book about the common, universal concerns of childhood and the slowly developing deep sense of place that is the bedrock for our memories. Alert and affectionate, full of great curiosity and humour, *Other People's Countries* has all the depth and complexity of its own subject — memory — and is an unfashionably distilled, resonant book: unusual and exquisite.

Invisible Countries Joshua Keating, 2018-01-01 A thoughtful analysis of how our world's borders came to be and why we may be emerging from a lengthy period of cartographical stasis What is a country? While certain basic criteria--borders, a government, and recognition from other countries--seem obvious, journalist Joshua Keating's book explores exceptions to

these rules, including self-proclaimed countries such as Abkhazia, Kurdistan, and Somaliland, a Mohawk reservation straddling the U.S.-Canada border, and an island nation whose very existence is threatened by climate change. Through stories about these would-be countries' efforts at self-determination, as well as their respective challenges, Keating shows that there is no universal legal authority determining what a country is. He argues that although our current world map appears fairly static, economic, cultural, and environmental forces in the places he describes may spark change. Keating ably ties history to incisive and sympathetic observations drawn from his travels and personal interviews with residents, political leaders, and scholars in each of these invisible countries.

The Zionist Ideas Gil Troy, 2018-04-01 The most comprehensive Zionist collection ever published, *The Zionist Ideas: Visions for the Jewish Homeland—Then, Now, Tomorrow* sheds light on the surprisingly diverse and shared visions for realizing Israel as a democratic Jewish state. Building on Arthur Hertzberg's classic, *The Zionist Idea*, Gil Troy explores the backstories, dreams, and legacies of more than 170 passionate Jewish visionaries—quadruple Hertzberg's original number, and now including women, mizrachim, and others—from the 1800s to today. Troy divides the thinkers into six Zionist schools of thought—Political, Revisionist, Labor, Religious, Cultural, and Diaspora Zionism—and reveals the breadth of the debate and surprising syntheses. He also presents the visionaries within three major stages of Zionist development, demonstrating the length and evolution of the conversation. Part 1 (pre-1948) introduces the pioneers who founded the Jewish state, such as Herzl, Gordon, Jabotinsky, Kook, Ha'am, and Szold. Part 2 (1948 to 2000) features builders who actualized and modernized the Zionist blueprints, such as Ben-Gurion, Berlin, Meir, Begin, Soloveitchik, Uris, and Kaplan. Part 3 showcases today's torchbearers, including Barak, Grossman, Shaked, Lau, Yehoshua, and Sacks. This mosaic of voices will engage equally diverse readers in reinvigorating the Zionist conversation—weighing and developing the moral, social, and political character of the Jewish state of today and tomorrow.

Great Delusion John J. Mearsheimer, 2018-09-25 A renowned scholar argues that liberal hegemony—the policy America has pursued since the Cold War ended—is doomed to fail Named a Financial Times Best Book of 2018 “Idealists as well as realists need to read this systematic tour de force.”—Robert D. Kaplan, author of *The Return of Marco Polo's World* It is widely believed in the West that the United States should spread liberal democracy across the world, foster an open international economy, and build international institutions. The policy of remaking the world in America's image is supposed

to protect human rights, promote peace, and make the world safe for democracy. But this is not what has happened. Instead, the United States has become a highly militarized state fighting wars that undermine peace, harm human rights, and threaten liberal values at home. In this major statement, the renowned international-relations scholar John Mearsheimer argues that liberal hegemony—the foreign policy pursued by the United States since the Cold War ended—is doomed to fail. It makes far more sense, he maintains, for Washington to adopt a more restrained foreign policy based on a sound understanding of how nationalism and realism constrain great powers abroad. The Great Delusion is a lucid and compelling work of the first importance for scholars, policymakers, and everyone interested in the future of American foreign policy.
