**Manual of Museum Exhibitions** Barry Lord, Maria Piacente, 2014-04-07 All museum activities converge in the public forum of the exhibition – regardless of whether the exhibit is held in the physical museum or is on the Web. Since the first edition of this book in 2002, there has been a world-wide explosion of new galleries and exhibition halls, and new ideas about how exhibitions should look and communicate. The definition of what an exhibition is has changed as exhibitions can now be virtual; non-traditional migratory and pop-up spaces play host to temporary displays; social media has created amazing opportunities for participatory engagement and shifted authority away from experts to the public; and as time-constrained audiences demand more dynamic, interactive, and mobile applications, museum leadership, managers, staff, and designers are rising to these challenges in innovative ways. Drawing on years of experience and top-flight expertise, Barry Lord and Maria Piacente detail the exhibition process in a straightforward way that can be easily adapted by institutions of any size. They explore the exhibition development process in greater detail, providing the technical and practical methodologies museum professionals need today. They've added new features and expanded chapters on project management, financial planning and interactive multimedia while retaining the essential content related to interpretive planning, curatorship, and roles and responsibilities. This second edition of the standby Manual of Museum Exhibitions is arranged in four parts: Why – Covering the purpose of exhibits, where exhibit ideas come from, and how to measure success Where – Covering facilities and spaces, going into details including security, and interactive spaces What – A look at both permanent collection displays, and non-collection displays, as well as virtual, participatory, temporary, travelling displays, and retail sales How – Who is involved, planning, curatorship, and content development, design, multimedia, fabrication and installation, financial planning, and project management Over 130 figures and photographs illustrate every step of the exhibit process. No museum can be without this critical, detailed guide to an essential function.

**The Manual of Museum Exhibitions** Barry Lord, Gail Dexter Lord, Gail Dexter, 2002 This is a guide to the process of planning, designing, producing and evaluating exhibitions for museums. Subjects range from traditional displays of art, artifacts and specimens from the permanent collection to the latest developments in virtual reality, online exhibitions, and big-screen reality.

**Gender equality, heritage and creativity** UNESCO, 2014-10-13 Initiated by the Culture Sector of UNESCO, the report

draws together existing research, policies, case studies and statistics on gender equality and women's empowerment in culture provided by the UN Special Rapporteur in the field of cultural rights, government representatives, international research groups and think-tanks, academia, artists and heritage professionals. It includes recommendations for governments, decision-makers and the international community, within the fields of creativity and heritage. Annex contains essay 'Gender and culture: the statistical perspective' by Lydia Deloumeaux.

**Violence at Work** Duncan Chappell, Vittorio Di Martino, International Labour Office, 2006 Violence at work, ranging from bullying and mobbing, to threats by psychologically unstable co-workers, sexual harassment and homicide, is increasing worldwide and has reached epidemic levels in some countries. This updated and revised edition looks at the full range of aggressive acts, offers new information on their occurrence and identifies occupations and situations at particular risk. It is organised in three sections: understanding violence at work; responding to violence at work; future action.

Pursuing Justice for Mass Atrocities Sarah McIntosh, 2021-03-18 Pursuing Justice for Mass Atrocities: A Handbook for Victim Groups is an educational resource for victim groups that want to influence or participate in the justice process for mass atrocities. It presents a range of tools that victim groups can use, from building a victim-centered coalition and developing a strategic communications plan to engaging with policy makers and decision makers and using the law to obtain justice.

The Unplugging Yvette Nolan, 2014 In this tale of survival, two women are exiled from their post-apocalyptic village because they have passed their child-bearing years.

*The Gender-Technology Relation* Rosalind Gill, Keith Grint, 2018-12-07 Provides a review of contemporary theory and empirical research into the relationship between feminism and social constructivism. Through case studies, the book focuses on issues raised by different technologies and on developing theoretical understandings of the gender-technology relation.

**Holy** Donna Ferrato, 2021-01-26 Photographer Donna Ferrato goes on a radical 50-year road trip across the USA as women fight for equality in the bedroom and the boardroom. Holy follows her journey from the sexual revolution of the '60s through the #metoo era of today. Holy is forged from one woman's outrage against a woman-hating world. May it anger you. Donna Ferrato's radical photographs show what women are capable of surviving. More than survive, Holy depicts women who prevail. Holy is an invitation to understand how it feels being held down by the patriarchy-what we are fighting for, what we are up against--and how we manage to maintain a sense of desire and appetite. Fighting for equality in the bedroom and the boardroom, Ferrato's journey follows the sexual revolution of the '60s through the #metoo era of today. Holy is a showcase of power. Donna's images reveal women's bodies in all their monstrous glory-even her own. May these photographs

mobilize you, whether you are cis or trans, young or old, butch or femme. Human survival depends on women. Embrace your instincts, desires, brainpower, and strength. Embrace each other.

**Sexual Violence as a Weapon of War?** Maria Eriksson Baaz, Professor Maria Stern, 2013-05-09 All too often in conflict situations, rape is referred to as a 'weapon of war', a term presented as self-explanatory through its implied storyline of gender and warring. In this provocative but much-needed book, Eriksson Baaz and Stern challenge the dominant understandings of sexual violence in conflict and post-conflict settings. Reading with and against feminist analyses of the interconnections between gender, warring, violence and militarization, the authors address many of the thorny issues inherent in the arrival of sexual violence on the global security agenda. Based on original fieldwork in the Democratic Republic of the Congo, as well as research material from other conflict zones, *Sexual Violence as a Weapon of War?* challenges the recent prominence given to sexual violence, bravely highlighting various problems with isolating sexual violence from other violence in war. A much-anticipated book by two acknowledged experts in the field, on an issue that has become an increasingly important security, legal and gender topic.

**Culture | 2030 indicators** UNESCO, 2019-11-18

**Parasite Diversity and Diversification** Serge Morand, Boris R. Krasnov, D. Timothy J. Littlewood, 2015-02-26 By joining phylogenetics and evolutionary ecology, this book explores the patterns of parasite diversity while revealing diversification processes.

*Decent Work and Economic Growth* Walter Leal Filho, Anabela Marisa Azul, Luciana Brandli, Amanda Lange Salvia, Tony Wall, 2020-10-20 The problems related to the process of industrialisation such as biodiversity depletion, climate change and a worsening of health and living conditions, especially but not only in developing countries, intensify. Therefore, there is an increasing need to search for integrated solutions to make development more sustainable. The United Nations has acknowledged the problem and approved the “2030 Agenda for Sustainable Development”. On 1st January 2016, the 17 Sustainable Development Goals (SDGs) of the Agenda officially came into force. These goals cover the three dimensions of sustainable development: economic growth, social inclusion and environmental protection. The Encyclopedia of the UN Sustainable Development Goals comprehensively addresses the SDGs in an integrated way. The Encyclopedia encompasses 17 volumes, each one devoted to one of the 17 SDGs. This volume addresses SDG 8, namely Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all and contains the description of a range of terms, to allow a better understanding and foster knowledge. The predominant economic model is promoting a lopsided economic growth that is further increasing the gap between the have and the have-nots. This SDG is not just proposing the attainment of more just and empowering economic models, but it also puts at the forefront the well-being of workers by striving to provide employment and better working conditions that respect the dignity of workers. Concretely, the defined

targets are: Sustain per capita economic growth in accordance with national circumstances and, in particular, at least 7 per cent gross domestic product growth per annum in the least developed countries Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead Achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value Substantially reduce the proportion of youth not in employment, education or training Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and end child labour in all its forms Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment Devise and implement policies to promote sustainable tourism that creates jobs and promotes local culture and products Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all Increase Aid for Trade support for developing countries, in particular least developed countries, including through the Enhanced Integrated Framework for Trade-related Technical Assistance to Least Developed Countries Develop and operationalize a global strategy for youth employment and implement the Global Jobs Pact of the International Labour Organization Editorial Board Rimjhim M Aggarwal, Rosa Maria Fernandez, Edurne A. Inigo, Nerise Johnson, Dmitry Kurochkin, Wim Lambrechts, Sonja Rewhorn, Marco Tortora, Tony Wall

Rerolling Boardgames Douglas Brown, Esther MacCallum-Stewart, Matthew Wilhelm Kapell, 2020-08-28 Despite the advent and explosion of videogames, boardgames--from fast-paced party games to intensely strategic titles--have in recent years become more numerous and more diverse in terms of genre, ethos and content. The growth of gaming events and conventions such as Essen Spiel, Gen Con and the UK Games EXPO, as well as crowdfunding through sites like Kickstarter, has diversified the evolution of game development, which is increasingly driven by fans, and boardgames provide an important glue to geek culture. In academia, boardgames are used in a practical sense to teach elements of design and game mechanics. Game studies is also recognizing the importance of expanding its focus beyond the digital. As yet, however, no collected work has explored the many different approaches emerging around the critical challenges that boardgaming represents. In this collection, game theorists analyze boardgame play and player behavior, and explore the complex

interactions between the sociality, conflict, competition and cooperation that boardgames foster. Game designers discuss the opportunities boardgame system designs offer for narrative and social play. Cultural theorists discuss boardgames' complex history as both beautiful physical artifacts and special places within cultural experiences of play.

**The Professor Is In** Karen Kelsky, 2015-08-04 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application - Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap - Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

**Bodies of Technology** Ann Rudinow Saetnan, Nelly Oudshoorn, Marta Stefania Maria Kirejczyk, 2000 This work is based on a concern for women's health and autonomy and on the premise that technology and society mutually shape one another. A basic question is one of cultural appropriation. Do technologies take on different shapes, different practices, and have different impacts as they spread from one place to another? By juxtaposing a number of culturally and historically contextualized studies of similar technologies, the editors demonstrate that although technologies globalize by spreading among cultures, they are also localized by the cultures they encounter.

**Freedom & creativity** UNESCO, Cuny, Laurence, 2020-05-04

**William Kentridge** William Kentridge, 2020-09-01 Explore William Kentridge's remarkable performance piece, The Head & The Load, and discover how music, dance, writing, and fine art are combined to tell the haunting story of Africans during WWI. For over thirty years, William Kentridge has been combining fine arts, performance, theatre, and opera to create

dreamlike, political, and humanist works. His installations, films, and drawings often deal with the political situation in South Africa, apartheid, and the consequences of colonialism. This book gives an in-depth examination of his performance piece *The Head & The Load*, which explores the role of Africa during World War I. Throughout the war, more than one million Africans carried provisions and military equipment in hazardous conditions for British, French, and German troops at minimal or no pay. William Kentridge tells the story of these African porters who ensured the success of the victors, but remain in the shadows. This history, rarely studied today, unfolds in a staged tableau combining music, dance, acting, screenings, and mechanized sculptures. The book includes photos and text from the performance, essays, and artworks created specifically by Kentridge to complement the play. Accompanied by an international cast of singers, actors, and dancers, and with music composed by Philip Miller, *The Head & The Load* is a powerful and multifaceted work that reconsiders colonial history and its repercussions in today's world.

Feminist Theory Ann Cudd, Robin Andreasen, 2005-01-14 *Feminist Theory: A Philosophical Anthology* addresses seven philosophically significant questions regarding feminism, its central concepts of sex and gender, and the project of centering women's experience. Topics include the nature of sexist oppression, the sex/gender distinction, how gender-based norms influence conceptions of rationality, knowledge, and scientific objectivity, feminist ethics, feminist perspectives on self and autonomy, whether there exist distinct feminine moral perspectives, and what would comprise true liberation. Features an introductory overview illustrating the development of feminism as a philosophical movement. Contains both classic and contemporary sources of feminist thought, including selections by Mary Wollstonecraft, John Stuart Mill, Simone de Beauvoir, Kate Millett, bell hooks, Marilyn Frye, Martha Nussbaum, Louise Antony, Sally Haslanger, Helen Longino, Marilyn Friedman, Catharine MacKinnon, and Drucilla Cornell.
