15 Minutes to Fitness Vincent Ben Bocchicchio, 2017-01-17 Do you ever feel like a hamster, spinning on a wheel in an endless loop and getting nowhere when it comes to your health and fitness? Are you working out regularly and cutting calories but seeing no real improvements? Does it feel like you will never lose those last 10 or 20 pounds? Or do you feel as if you simply don't have the time required to lose the fat and get into shape? Imagine if you could have the blueprint for the most efficient form of exercise to keep your body healthy and fit and an eating plan to satisfy hunger, taste, and health. Well, now you can. The best part? It will only require 15 minutes of exercise, twice a week, paired with a controlled-carb diet, and on the average, you will lose 10 pounds of fat within five weeks. It's hard to believe, but it works—and 15 Minutes to Fitness: Dr. Ben's SMaRT plan for total Fitness will not only show you how to do it but also explain why it works. If this sounds like just another “new exercise secret,” please be assured that it is most certainly not. The foundation of this program is based on years of study, observation, and practice, and it has delivered real, measurable results in the overwhelming majority of those who have tried it. Dr. Vincent “Ben” Bocchicchio has spent the last 40 years in the fitness and health field, and as he approaches 70, people are still shocked to hear that he only spends 14 minutes twice a week on working out. But it's true. With only 7 percent body fat, he is often asked what the secret is and if there's a “magic bullet.” The answer would be that the magic bullet is knowledge. And now with this book you will understand why genetically our bodies require simple and limited exercise exposure and how you can follow this optimal pattern yourself. The fact is that as humans we are hard-wired to exercise our bodies in very specific ways to reap the highest level of health benefits. I will provide the simple scientific argument for why my combination of high intensity exercise and controlled carbohydrate eating is the most effective means for burning fat, so that you can better understand exactly why this works. Exercise and diet are the two most powerful tools available for attaining high levels of health and function, and 15 Minutes to Fitness will show you just how little it actually takes to achieve a maximum response.

The 24/7 Body Matt Morsia,2020-12-31 The first book by Matt Morsia, the UK's #1 Fitness Vlogger*** THE SUNDAY TIMES TOP TEN BESTSELLER AS SEEN IN BBC ONE'S GLADIATORS TV SERIES AS LEGEND 'Powerfully dispels myths with science and humour - every gym bag deserves a copy' ROSS EDGELY, #1 bestselling author of The Art of Resilience and The World's Fittest Book 'More fitness viewers than Joe Wicks . . . Matt Morsia trained for the Olympics, beat an eating disorder and overcame depression. Now he has published The 24/7 Body, a book based on cutting-edge science which dispels the myths about fad diets and workouts' THE SUN 'Shatters diet myths and clears up a wealth of misinformation' SUNDAY TIMES _____ Whatever your goals or your level of fitness, this book offers you a plan to make you look and feel great 24/7. I've tried every workout and fad diet so you don't have to. As a former PE teacher, athlete, personal trainer and now one of the biggest fitness YouTubers in the World (a.k.a an absolute weirdo who films themselves doing stuff), the most common question I get from followers and even people in the street is, 'How do I get a body like yours?'

People will almost whisper it, as if I'm going to usher them into a dark alleyway and reply with some kind of mystical secret. Like they're expecting to be told that they need to drink 263ml of maple syrup three times a day whilst reading the complete works of Shakespeare to their dog. Other times they seem to want me to reveal a protocol of supplements, with an inference that I must be taking steroids or other drugs, because having a good body without chemicals is now seen by some as almost impossible. It's not. This book is my attempt to shatter all of those myths and give it to you entirely straight. It is about understanding how to live your life in a more healthy, sustainable and happy way-and how to maintain that forever. And I'm not talking about becoming a monk and only eating lettuce. If you want to eat McDonald's, go for it. Eating crappy food doesn't make you fat and by the time you're done with the book you'll understand why. I want to arm you with your own set of tools so that you can tailor my methods and experiences to you and your own unique situation.
