

Trauma And The Memory Of Politics

Michael S. Roth

Trauma and the Memory of Politics Jenny Edkins, 2003-07-31 In this interesting study, Jenny Edkins explores how we remember traumatic events such as wars, famines, genocides and terrorism, and questions the assumed role of commemorations as simply reinforcing state and nationhood. Taking examples from the World Wars, Vietnam, the Holocaust, Kosovo and September 11th, Edkins offers a thorough discussion of practices of memory such as memorials, museums, remembrance ceremonies, the diagnosis of post-traumatic stress and the act of bearing witness. She examines the implications of these commemorations in terms of language, political power, sovereignty and nationalism. She argues that some forms of remembering do not ignore the horror of what happened but rather use memory to promote change and to challenge the political systems that produced the violence of wars and genocides in the first place. This wide-ranging study embraces literature, history, politics and international relations, and makes a significant contribution to the study of memory.

Memory, Trauma and World Politics D. Bell, 2006-10-20 Memory, Trauma and World Politics focuses on the effect that the memory of traumatic episodes (especially war and genocide) has on shaping contemporary political identities. Theoretically sophisticated and empirically rich, this book is an incisive treatment of the ways in which the study of social memory can inform global politics analysis.

Memory and Trauma in International Relations Erica Resende, Dovile Budryte, 2013-11-20 This work seeks to provide a comprehensive and accessible survey of the international dimension of trauma and memory and its manifestations in various cultural contexts. Drawing together contributions and case studies from scholars around the globe, the book explores the international political dimension of feeling, suffering, forgetting, remembering and memorializing traumatic events and to investigate how they function as social practices for overcoming trauma and creating social change. Divided into two sections, the book maps out the different theoretical debates and then moves on to examine emerging themes such as ontological security, social change, gender, religion, foreign policy & natural disasters. Throughout the chapters, the editors consider the social, political and ethical implications of forgetting and remembering traumatic events in world politics. Showcasing how trauma and memory deepen our understanding of IR, this work will be of great interest to students and scholars of international relations, memory and trauma studies and security studies.

Grassroots Memorials Peter Jan Margry, Cristina Sánchez-Carretero, 2011-08-01 Grassroots memorials have become

major areas of focus during times of trauma, danger, and social unrest. These improvised memorial assemblages continue to display new and more dynamic ways of representing collective and individual identities and in doing so reveal the steps that shape the national memories of those who struggle to come to terms with traumatic loss. This volume focuses on the hybrid quality of these temporary memorials as both monuments of mourning and as focal points for protest and expression of discontent. The broad range of case studies in this volume include anti-mafia shrines, Theo van Gogh's memorial, September 11th memorials, March 11th shrines in Madrid, and Carlo Giuliani memorials in Genoa.

Affective Heritage and the Politics of Memory after 9/11 Jacque Micieli-Voutsinas, 2021-03-30 This book critically examines the institutional curation of traumatic memory at the 9/11 Memorial Museum and its evocative power as a cultural storyteller. Memorial Museums are evocative spaces. Drawing on aesthetic practices deeply rooted in representing the 'unrepresentability' of cultural trauma, most notably the Holocaust, Memorial Museums are powerful, popular mediums for establishing cultural values, asking the visitor to contemplate Who am I? in relation to the difficult histories on display. Using primary data, this book poses important questions about the emotionally-charged site: what 'moral lessons' are visitors imparted with at the 9/11 Memorial Museum? Who is the cultural institution's primary audience—the imagined community it reconstructs this traumatic history and safeguards its memories for? What does the National September 11 Memorial & Museum ultimately teach visitors about history, ourselves, and others? This work will be of interest to students and scholars in the areas of Human Geography, American Studies, Museum Studies and Public History, Cultural and Heritage Studies, and Trauma and Memory Studies.

Deleuze and the Contemporary World Ian Buchanan, 2006-07-03 This volume joins the pragmatic philosophy of Deleuze to current affairs. The twelve new essays in this volume use a contemporary context to think through and with Deleuze. Engaging the here and now, the contributors use the Deleuzian theoretical apparatus to think about issues such as military activity in the Middle East, refugees, terrorism, information and communication, and the State. The book is aimed both at specialists of Deleuze and those who are unfamiliar with his work but who are interested in current affairs. Incorporating political theory and philosophy, culture studies, sociology, international studies, and Middle Eastern studies, the book is designed to appeal to a wide audience.

The Politics of Trauma and Integrity Sachiyo Tsukamoto, 2022-06-07 The Politics of Trauma and Integrity uses the lenses of gender and trauma to tell the stories of narratives testified by two contrasting Japanese comfort women survivors. Through an innovative interdisciplinary study of the politics of gendered memory and trauma in historical context, with numerous primary sources for analysis including diaries, interviews, letters and oral testimonies, this book uncovers the life-or-death struggles of Japanese survivors in pursuit of public recognition as the victims of state violence against women. It is set within a gender history of modern Japan, supplemented by feminist activist methodology premised upon political agency

that seeks social justice. The author's analysis draws upon three key concepts: trauma, coherence of the self, and integrity. Focusing upon the role of gender and trauma as the nexus between memory construction and identity formation in modern Japan, the author reveals these women's relentless quest for their recovery and creation of new identities. This book provides a better understanding of the victims of sexual violence and encourages readers to listen to the voice of trauma, as well as making a significant contribution to the existing research on the ongoing history of sexual violence against women in Japan, the rest of Asia and beyond. It will be of interest to scholars, researchers, activists and all who are interested in the issue of women's human rights. It provides supplementary reading and research material for history and politics courses relating to Japan and East Asia, memory, identity, trauma, gender, war and feminist activism. This book will also be beneficial to victims of sexual violence as well as the counsellors/psychologists engaging with them.

Myth, Memory, Trauma Polly Jones, 2013-08-27 Drawing on newly available materials from the Soviet archives, Polly Jones offers an innovative, comprehensive account of de-Stalinization in the Soviet Union during the Khrushchev and early Brezhnev eras. Jones traces the authorities' initiation and management of the de-Stalinization process and explores a wide range of popular reactions to the new narratives of Stalinism in party statements and in Soviet literature and historiography. Engaging with the dynamic field of memory studies, this book represents the first sustained comparison of this process with other countries' attempts to rethink their own difficult pasts, and with later Soviet and post-Soviet approaches to Stalinism.

Shadows of Trauma Aleida Assmann, 2016 The book traces the process of creating of a new German memory of the Holocaust after the fall of the Wall. Combining theoretical analysis with historical case studies, the book revisits crucial debates and controversial issues out of which Germany's new 'memory culture' emerged as a collective project and work in

progress--

Memory Politics, Identity and Conflict Zheng Wang, 2017-10-10 This book focuses on the methodology of research on historical memory and contributes to theoretical discussions concerning the use of historical memory as a variable to explain political action and social movement. The chapters of the book conceptualize the relationship between historical memory and national identity formation, perceptions, and policy-making. The author particularly analyses how contested memory and the related social discourse can lead to nationalism and international conflict. Based on theories and research from multiple fields of studies, this book proposes a series of analytic frameworks for the purpose of conceptualizing the functions of historical memory. These analytic frameworks can help categorize, measure, and subsequently demonstrate the effects of historical memory. This book also discusses how to use public opinion polls, textbooks, important texts and documents, monuments and memory sites for conducting research to examine the functions of historical memory.

Trauma and Memory Peter A. Levine, Ph.D., 2015-10-27 Designed for psychotherapists and their clients, Peter Levine's latest best-seller continues his groundbreaking exploration of the central role of the body in processing—and healing—trauma. With foreword by Bessel van der Kolk, author of *The Body Keeps the Score* In Trauma and Memory, bestselling author Dr. Peter Levine (creator of the Somatic Experiencing approach) tackles one of the most difficult and controversial questions of PTSD/trauma therapy: Can we trust our memories? While some argue that traumatic memories are unreliable and not useful, others insist that we absolutely must rely on memory to make sense of past experience. Building on his 45 years of successful treatment of trauma and utilizing case studies from his own practice, Dr. Levine suggests that there are elements of truth in both camps. While acknowledging that memory can be trusted, he argues that the only truly useful memories are those that might initially seem to be the least reliable: memories stored in the body and not necessarily accessible by our conscious mind. While much work has been done in the field of trauma studies to address explicit traumatic memories in the brain (such as intrusive thoughts or flashbacks), much less attention has been paid to how the body itself stores implicit memory, and how much of what we think of as memory actually comes to us through our (often unconsciously accessed) felt sense. By learning how to better understand this complex interplay of past and present, brain and body, we can adjust our relationship to past trauma and move into a more balanced, relaxed state of being. Written for trauma sufferers as well as mental health care practitioners, *Trauma and Memory* is a groundbreaking look at how memory is constructed and how influential memories are on our present state of being.

Present Pasts Andreas Huyssen, 2003 This book analyzes the relation of public memory to history, forgetting, and selective memory in three late-twentieth-century cities that have confronted major social or political traumas—Berlin, Buenos Aires, and New York.

Tense Past Paul Antze, Michael Lambek, 2016-05-06 *Tense Past* provides a much needed appraisal and contextualization

of the upsurge of interest in questions of memory and trauma evident in multiple personality and post-traumatic stress disorders, child abuse, and commemoration of the Holocaust. Contributors examine the historical origins of memory in psychiatric discourse and show its connection to broader developments in Western science and medicine. They address the new links between trauma and memory, and they explore how memory shapes the way traumatic events are put into narrative form. They also consider the social and political contexts in which sufferers speak and remember.

A Companion to Public History David M. Dean, 2018-10-08 An authoritative overview of the developing field of public history reflecting theory and practice around the globe This unique reference guides readers through this relatively new field of historical inquiry, exploring the varieties and forms of public history, its relationship with popular history, and the ways in which the field has evolved internationally over the past thirty years. Comprised of thirty-four essays written by a group of leading international scholars and public history practitioners, the work not only introduces readers to the latest scholarly academic research, but also to the practice and pedagogy of public history. It pays equal attention to the emergence of public history as a distinct field of historical inquiry in North America, the importance of popular history and 'history from below' in Europe and European colonial-settler states, and forms of historical consciousness in non-Western countries and peoples. It also provides a timely guide to the state of the discipline, and offers an innovative and unprecedented engagement with methodological and theoretical problems associated with public history. Generously illustrated throughout, The Companion to Public History's chapters are written from a variety of perspectives by contributors from all continents and from a wide variety of backgrounds, disciplines, and experiences. It is an excellent source for getting readers to think about history in the public realm, and how present day concerns shape the ways in which we engage with and represent the past. Cutting-edge companion volume for a developing area of study Comprises 36 essays by leading authorities on all aspects of public history around the world Reflects different national/regional interpretations of public history Offers some essays in teachable forms: an interview, a roundtable discussion, a document analysis, a photo essay. Covers a full range of public history practice, including museums, archives, memorial sites as well as historical fiction, theatre, re-enactment societies and digital gaming Discusses the continuing challenges presented by history within our broad, collective memory, including museum controversies, repatriation issues, 'textbook' wars, and commissions for Truth and Reconciliation The Companion is intended for senior undergraduate students and graduate students in the rapidly growing field of public history and will appeal to those teaching public history or who wish to introduce a public history dimension to their courses.

Making Peace with the Past? Graham Dawson, 2007 This book explores the psychic, cultural, and political ramifications of memory within the Irish troubles. It investigates the traumatic impact of the violence perpetrated since 1969; the antagonistic cultural narratives of memory fashioned and mobilized in this context within public and private arenas; and the conflicts, paradoxes, and contradictions involved in coming to terms with the past both before and during the Irish peace

process initiated in 1993-94. It traces the formation from below of competing public narratives--one concerned with the ethnic cleansing of Protestants by the Irish Republican Army, the other with British state violence on Bloody Sunday--and analyses their subjective roots in specific experiences of fear and loss, their role in ideological struggle, and their complicated relation to private, familial, and individual remembering.

Trauma Cathy Caruth, 1995-06 A distinguished group of analysts and critics offers a compelling look at what literature and the new approaches of theoretical disciplines bring to the understanding of traumatic experiences such as child abuse, AIDS, and the effects of historical atrocities such as the Holocaust. These essays offer fresh approaches on the subject of trauma from both a psychoanalytic and contemporary theoretical point of view.--Alan Bass, Ph.D., psychoanalyst.

Memory, Trauma, and History Michael S. Roth, 2011-11-22 Memory, trauma, and history is composed of essays that fall into five overlapping subject areas: history and memory; psychoanalysis and trauma; postmodernism, scholarship, and cultural politics; photography and representation; and liberal education. -- Introduction.

Performing Commemoration Annegret Fauser, Michael A. Figueroa, 2020-10-07 Public commemorations of various kinds are an important part of how groups large and small acknowledge and process injustices and tragic events. *Performing Commemoration: Musical Reenactment and the Politics of Trauma* looks at the roles music can play in public commemorations of traumatic events that range from the Armenian genocide and World War I to contemporary violence in the Democratic Republic of the Congo and the #sayhername protests. Whose version of a traumatic historical event gets told is always a complicated question, and music adds further layers to this complexity, particularly music without words. The three sections of this collection look at different facets of musical commemorations and reenactments, focusing on how music can mediate, but also intensify responses to social injustice; how reenactments and their use of music are shifting (and not always toward greater social effectiveness); and how claims for musical authenticity are politicized in various ways. By engaging with critical theory around memory studies and performance studies, the contributors to this volume explore social justice, in, and through music.
