*Father Sun, Mother Moon* Wendell C. Perry, Linda A. Perry, 2014-02-11 The Sun and the Moon signs are always among the first factors a professional astrologer looks at when interpreting a horoscope. But knowing your Sun and Moon signs is not the same thing as knowing how they work together. Whatever your Sun does to push you out into the world is complemented by what your Moon is doing to protect you. The Sun is your offense. The Moon is your defense. That's what this book is about and how it differs from other books: I treat the Sun and the Moon as a team. It is through the Sun and the Moon that we learn who we are and discover our essential identity; we make that essential self, our ego, a part of the world at large. What makes the Sun and the Moon so different from one another is the way in which each goes about this task. The Sun is like the proud poppa. He stands back and watches as his child (your ego) takes his or her first steps. The Sun cheers, he prods, he offers encouragement but he keeps his distance. The Moon is the worried momma. She's scanned the room for sharp edges even before the child takes the first step. Then she watches breathlessly, ready to reach out and offer support at the merest stumble. We need both Father Sun and Mother Moon to make our way. We need the Sun to give us vitality, ambition, courage and self-confidence. We need the Moon to provide us with the emotional intelligence to know when we are in a situation that might do us harm and to help us find the people and the circumstances that will make us feel emotionally complete. Despite these differences, these two astrological bodies work toward the same purpose, to make you the happy, productive person that you were meant to be. The book is divided into 12 chapters, one for each Sun sign. At the beginning of each chapter there is a brief description of the influence of the Sun in this sign. This is followed by a description of how that Sun sign works in combination with each of the 12 possible Moon signs. In total, there are 144 different combinations. Don't know your Moon sign? **Saturn Cycles** Wendell C. Perry, 2009 Saturn has an immense developmental impact on our lives at every major stage, from childhood to adulthood. This book introduces you to the technique of mapping Saturn transits, one of the most accurate and reliable predictive tools in astrology. As Saturn makes aspects to cardinal points in your natal chart, such as the Ascendant, Imum Coeli, Midheaven, and Descendant, it signals important changes and challenges in the crucial areas of self,

home life, career, and relationships. Step by step, you will learn to map your personal development, make positive choices, and ultimately reach your full potential. A one-of-a-kind astrology book, *Saturn Cycles* highlights real events in the lives of real people to demonstrate this planet's powerful influence. Over two dozen biographical case studies of famous people show how Saturn has shaped the destinies of Oprah Winfrey, Bill Clinton, the Dalai Lama, Britney Spears, and many others. Each person's birth chart reflects a unique pattern of valuable lessons and fulfilling rewards. What will Saturn reveal about the story of your life?

**Cosmic Order and Divine Power** Johan C. Thom, 2014-09-18 The treatise *De mundo* offers a cosmology in the Peripatetic tradition which subordinates what happens in the cosmos to the might of an omnipotent god. Thus the work is paradigmatic for the philosophical and religious concepts of the early imperial age, which offer points of contact with nascent Christianity.

**Astrology and Cosmology in Early China** David W. Pankenier, 2013-10-10 Drawing on a vast array of scholarship, this pioneering text illustrates how profoundly astronomical phenomena shaped ancient Chinese civilization.

Lucky Marissa Stapley, 2021-04-06 Lucky Armstrong is a tough, talented grifter who has just pulled off a million-dollar heist with her boyfriend, Cary. She's ready to start a brand-new life, with a new identity, when things go sideways. Alone for the first time, navigating the world without the help of either her father or her boyfriend, Lucky discovers that a lottery ticket she bought on a whim is worth millions. There's one big problem: cashing in the winning ticket means she'll be arrested for her crimes, go to prison, and have no chance to redeem her fortune. Will she be able to make a future for herself, without her dark past catching up with her? -- adapted from back cover

**The Body Is Not an Apology** Sonya Renee Taylor, 2018-02-13 *The Body Is Not an Apology* The Power of Radical Self-Love Against a global backdrop of war, social upheaval, and personal despair, there is a growing sense of urgency to challenge the systems of oppression that dehumanize bodies and strip us of our shared humanity. Rather than feel helpless in the face of oppression, world-renowned activist, performance poet, and author Sonya Renee Taylor teaches us how to turn to the power of radical self-love in her new book, *The Body Is Not an Apology*. Radical self-love is the guiding framework that transforms the learned self-hatred of our bodies and the prejudices we have about other people's bodies into a vision of compassion, equity, and justice. In a revolutionary departure from the corporate self-help and body-positivity movement, Taylor forges the inextricable bond between radical self-love and social justice. The first step is recognizing that we have all been indoctrinated into a system of body shame that profits off of our self-hatred. When we ask ourselves, Who benefits from

our collective shame? we can begin to make the distinction between the messages we are receiving about our bodies or other bodies and the truth. This book moves us beyond our all-too-often hidden lives, where we are easily encouraged to forget that we are whole humans having whole human experiences in our bodies alongside others. Radical self-love encourages us to embark on a personal journey of transformation with thoughtful reflection on the origins of our minds and bodies as a source of strength. In doing this, we not only learn to reject negative messages about ourselves but begin to thwart the very power structures that uphold them. Systems of oppression thrive off of our inability to make peace with bodies and difference. Radical self-love not only dismantles shame and self-loathing in us but has the power to dismantle global systems of injustice—because when we make peace with our bodies, only then do we have the capacity to truly make peace with the bodies of others

**Genesis and Development of a Scientific Fact** Ludwik Fleck, Thaddeus J. Trenn, 2012-09-05 Originally published in German in 1935, this monograph anticipated solutions to problems of scientific progress, the truth of scientific fact and the role of error in science now associated with the work of Thomas Kuhn and others. Arguing that every scientific concept and theory—including his own—is culturally conditioned, Fleck was appreciably ahead of his time. And as Kuhn observes in his foreword, Though much has occurred since its publication, it remains a brilliant and largely unexploited resource. To many scientists just as to many historians and philosophers of science facts are things that simply are the case: they are discovered through properly passive observation of natural reality. To such views Fleck replies that facts are invented, not discovered. Moreover, the appearance of scientific facts as discovered things is itself a social construction, a made thing. A work of transparent brilliance, one of the most significant contributions toward a thoroughly sociological account of scientific knowledge.—Steven Shapin, *Science*

Introduction to Modernity Henri Lefebvre, 2012-01-16 Originally published in 1962, when Lefebvre was beginning his career as a lecturer in sociology at the University of Strasbourg, it established his position in the vanguard of a movement which was to culminate in the events of May 1968. A classic analysis of the modern world using Marxist dialectic, it is a book which supersedes the conventional divisions between academic disciplines. With dazzling skill, Lefebvre moves from philosophy to sociology, from literature to history, to present a profound analysis of the social, political and cultural forces at work in France and the world in the aftermath of Stalin's death—an analysis in which the contours of our own “postmodernity” appear with startling clarity.

**Postcolonial Astrology** Alice Sparkly Kat, 2021-05-18 Tapping into the political power of magic and astrology for social, community, and personal transformation. In a cross-cultural approach to understanding astrology as a magical language, Alice Sparkly Kat unmasks the political power of astrology, showing how it can be channeled as a force for collective healing and liberation. Too often, magic and astrology are divorced from their potency and cultural contexts: co-opted by

neoliberalism, used as a force of oppression, or distilled beyond recognition into applications that belie their individual and collective power. By looking at the symbolic and etymological histories of the sun, moon, Saturn, Venus, Mercury, Mars, and Jupiter, we can trace and understand the politics of magic--and challenge our own practices, interrogate our truths, and reshape our institutions to build better frameworks for communities of care. Fearless, radical, and fresh, Sparkly Kat's Postcolonial Astrology ushers in a new wave of astrology revival, refusing to apologize for its magickism and connecting its power to the spirituality and politics we need now. Intersectional, inclusive, and geared towards queer and POC communities, it uses our historical and collective constructs of the planets, sun, and moon to re-chart our subconscious history, redefine the body in the world, and assert our politics of the personal, in astrology and all things.

**More Brilliant than the Sun** Kodwo Eshun, 2020-02-04 The classic work on the music of Afrofuturism, from jazz to jungle *More Brilliant than the Sun: Adventures in Sonic Fiction* is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, *More Brilliant than the Sun* is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

**The Last Ticket** Christopher Sharp, 2017-09-13 Steve and his family move more than two thousand miles across the country to find a new beginning and remake their life together. Unfortunately, things didn't turn out exactly as they planned.

After the money ran short and he still couldn't find work he went to a day labor office as a last resort. On his first day there, he meets an unusual man that takes a special interest in him. As the man tries to dissuade him from working for the company, Steve tries to figure out why, that's when things get weird.

*HEAVEN KNOWS WHAT* GRANT LEWI,

**Poor Little Guy** Elanna Allen, 2016-06-07 With the cheeky twist of Jon Klassen's *This Is Not My Hat* and the graphic appeal of Mo Willems, *Poor Little Guy* will leave kids giggling...and begging for rereads! What do you do when you're so tiny that the bigger ocean creatures think you might even taste adorable? An itchy-bitsy, glasses-wearing fish is minding his own business when a playful (and hungry) octopus snatches him right up. Luckily, this poor little guy is not quite as innocent as he seems...and he has a BIG surprise up his sleeve! Told with wit, a wink, and a delightfully dark sense of humor, *Poor Little Guy* celebrates the very smallest...and all of their giant victories. Hand this cute but mighty book to fans of Bob Shea and Dan Krall.

*Space Is the Place* John Szwed, 2020-04-30 Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

*The Production of Space* Henri Lefebvre, 1992-04-08 Henri Lefebvre has considerable claims to be the greatest living philosopher. His work spans some sixty years and includes original work on a diverse range of subjects, from dialectical materialism to architecture, urbanism and the experience of everyday life. *The Production of Space* is his major philosophical work and its translation has been long awaited by scholars in many different fields. The book is a search for a reconciliation between mental space (the space of the philosophers) and real space (the physical and social spheres in which we all live). In the course of his exploration, Henri Lefebvre moves from metaphysical and ideological considerations of the meaning of space to its experience in the everyday life of home and city. He seeks, in other words, to bridge the gap between the realms of theory and practice, between the mental and the social, and between philosophy and reality. In doing so, he ranges through art, literature, architecture and economics, and further provides a powerful antidote to the sterile and obfuscatory

methods and theories characteristic of much recent continental philosophy. This is a work of great vision and incisiveness. It is also characterized by its author's wit and by anecdote, as well as by a deftness of style which Donald Nicholson-Smith's sensitive translation precisely captures.
